

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Currently Amended) A modular golf club and golf accessory bag comprising:  
  
a chassis having a closed bottom and open top;  
  
at least one attachment facility permanently affixed to an exterior of the chassis along its longitudinal symmetry axis, said at least one attachment facility having a plurality of fastening members along a periphery of the attachment facility;  
  
at least one pocket or pouch removably coupled to the exterior of the chassis or attachment facility; and  
  
a shoulder strap system removably coupled on the exterior of the chassis,  
  
~~said chassis being a cylindrical member having a closed bottom and open top;~~  
  
~~said at least one pocket or pouch being disposed on the exterior of the bag chassis~~  
  
~~removably affixed thereto;~~  
  
~~said shoulder strap system being disposed on the exterior of the bag chassis removably affixed thereto.~~
  
2. (Currently Amended) A modular golf club and golf accessory bag of claim 1, wherein said plurality of fastening members said attachment facility further comprising fasteners to removably couple said at least one pocket ~~pockets~~ and said shoulder strap system, both having mating fasteners.

3. (Currently Amended) A modular golf club and golf accessory bag of claim 1 ~~2~~, said ~~fasteners~~ plurality of fastening members are from the group of fasteners including: hook and loop fasteners, snaps, buckles, clips, removable studs, and mechanical interlocking mechanisms.

4. (Currently Amended) A modular golf club and golf accessory bag of claim 1 ~~2~~, said shoulder strap system is further comprised of a wishbone strap configuration and two bag straps, two padded shoulder ~~pad~~ strap elements each being removable from the wishbone strap and the two bag straps by way of mating buckle fasteners.

5. (Currently Amended) A modular golf club and golf accessory bag of claim 4, said shoulder strap system further ~~is comprised of~~ comprising removable shoulder molds ~~elements~~ which wrap about said padded shoulder strap elements and provide an ergonomic fit to the human shoulder.

6. (Currently Amended) A modular golf club and golf accessory bag of claim 5 ~~4~~, said two bag straps and wishbone strap form a three point attachment with respect to said chassis whereby either of said two bags straps or wishbone strap may be replaced by a similar strap.

7. (Original) A modular golf club and golf accessory bag of claim 5, said ~~shoulder~~ padded shoulder strap elements being changeable by way of a mating pair of buckle fasteners.

8. (Original) A modular golf club and golf accessory bag of claim 1, further comprising a stand system, said stand system being removably affixed to the bag by way of mechanical

interlocking fasteners whereby said stand may be removed from and replaced to said chassis without damaging the fasteners.

9. (Original) A modular golf club and golf accessory bag of claim 8, said stand system comprise at least two legs, each leg of the stand system being separately removable and replaceable via fasteners which may be operated without tools.

10. (Original) A modular golf club and golf accessory bag of claim 1, further comprising a back pad, said back pad being removably affixed to the chassis by way of mechanical interlocking fasteners whereby said back pad may be removed from and replaced to said chassis without damage to the fasteners.

11. (Original) A modular golf club and golf accessory bag of claim 10, said back pad being a molded foam element on a first side of a plastic back featuring stud fasteners integrated therewith on the other side of the plastic back.

12. (Original) A modular golf club and golf accessory bag of claim 1, said at least one pocket includes a pocket with a colored exterior surface.

13. (Currently Amended) A modular golf club and golf accessory bag of claim 1, said at least one attachment facility includes a system permanently affixed to a bag chassis comprising flap members with a combination of snaps and hook and ~~loop~~ loop type fasteners in a predetermined arrangement.

14. (Original) A modular golf club and golf accessory bag of claim 13, said at least one pocket has a top strip with mating fasteners arranged to cooperate with the fasteners of said attachment facility.

15. (Original) A modular golf club and golf accessory bag of claim 13, said attachment facility extends along a longitudinal direction of the bag on one side substantially the full extent of the bag and on the other side a partial extent to accommodate back pad in the remaining portion.

16. (Original) A modular golf club and golf accessory bag of claim 1, said at least one pocket includes at least two pockets, a first pocket having thereon an attachment facility suitable for couple thereto a second pocket to form a piggy-back arrangement.

17. (Cancelled)

18. (Original) A kit of golf bag components including a plurality of pockets having exterior surfaces with ~~indicial~~ indicia to reflect a particular theme or event.

19. (Cancelled)

20. (Cancelled)
